

WARNINGS

- Do not mount accessories in front of or near the path of airbag deployment.
- Check vehicle compatibility before install to avoid damage to the vehicle mount point.
- Designed to work with OEM dashboard only, not compatible with aftermarket modifications.
- Do not use with 3rd party extension arms. Adhere to our phone weight limits.
- Mount electronics away from airflow to prevent heat damage.

Self-installation instructions and advice are provided for your convenience. It is your responsibility to determine if you have the knowledge, skills, and physical ability required to properly perform an installation. Offroad shall have no liability for damage or injury resulting from the installation or use of any Offroad or third party products. It is your responsibility to ensure that all products are installed in adherence with local laws and regulations and in such a manner as to allow a vehicle to be operated safely and without distraction. Offroad product warranties do not cover the installation, removal or re-installation of any product.

Mounting Base

Trim Tool

L-key

Mounting Base Installation

Lexus GX 460 2022-2023

01

Using the L-key provided, fully loosen the screws and completely separate the small inner mounting base plate.

This inner mounting base plate will be inserted first, as shown in the next step.

02

Insert the trim tool into the seam behind the multimedia display (01) to the depth shown.

Position and insert the inner mounting base plate lip into the gap created as shown (02), with the screw holes facing forward.

Rotate it forwards until the screw holes face upward (03).

Remove the trim tool.

03

Next, position and align the main outer mounting base over the inner plate's holes (01).

04

Using the L-key, rethread both screws back into the inner plate and tighten both until base has a snug fit.

POSITIONING

Fits behind the screen in the positions shown.
