Self-installation instructions and advice are provided for your convenience. It is your responsibility to determine if you have the knowledge, skills, and physical ability required to properly perform an installation. Offroad shall have no liability for damage or injury resulting from the installation or use of any Offroad or third party products. It is your responsibility to ensure that all products are installed in adherence with local laws and regulations and in such a manner as to allow a vehicle to be operated safely and without distraction. Offroad product warranties do not cover the installation, removal or re-installation of any product.

Mounting Base

L-key

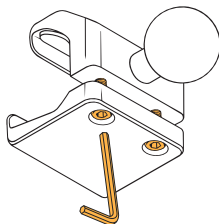

Mounting Base Installation

Toyota Highlander 2020+

01

Using the L-key provided, slightly loosen the screws to ensure the inner plate moves.

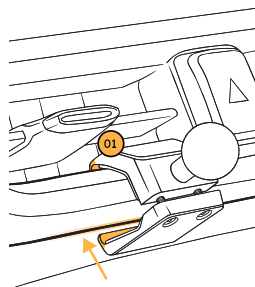

Do not fully remove the screws - keep about one thread engaged.

02

Place the mounting base over the vent bezel just left of the hazard button (01) as shown.

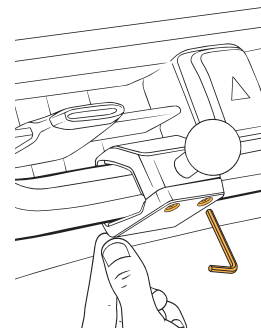

Press the lower mounting base plate upwards to engage the lower bezel.

03

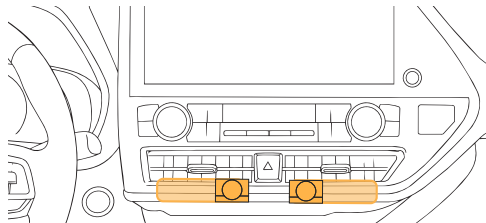

Using the L-Key, hand tighten screws until the mounting base has a snug fit around bezel.

To ensure best fit hold mounting base in position during tightening.

POSITIONING

Fits in the positions shown.
